NILMDTS is a nonprofit that provides the free gift of remembrance photography to parents suffering the death of a baby.

Volunteer photographers from around the world volunteer their time to go into hospitals and photograph the only moments parents will spend with their babies. In the last 10 years, NILMDTS has photographed more than 30,000 sessions.

The proceeds from the silent auction benefits NILMDTS.

I hope you will join me in supporting this amazing organization by bidding on items in the auction. Please bid and share with others.
